

CHOOSE THE LEVEL OF ACCURACY USING YOUR EXPERTISE or OUR EXPERTISE

PATIENT ASSESSMENT

Incorporate your own methods for patient health assessment.

ORDER SUPPLEMENTATION

Simply fill out our CustomVite® Order Form. You can choose from over 160 supplements in the recommended dosage for your patient.

CREDIT CARD PAYMENT

Fax the completed Order Form to us together with the patient's credit card information. The product will be manufactured to your exact requirements and shipped directly to your patient.

CustomVite Order Form. The form includes sections for Patient Information, Supplement Selection (with checkboxes for various vitamins and minerals), and Payment Information. It also features a table for selecting specific supplement dosages.

LIFESTYLE QUESTIONNAIRE

Have your patient fill out the questionnaire during their visit and fax it to us.

ORDER LAB TESTING

For greater accuracy, provide your patient with laboratory testing in addition to the questionnaire. The more accurate the information, the more accurate the assessment.

INTERPRET RESULTS

Our team of nutritionists can interpret the test results from blood, urine, saliva, hair, and stool samples. Simply send us the results, and NutriLab will incorporate them into a customized formulation.

Two forms from CustomVite. The top form is a 'CONFIDENTIAL LIFESTYLE AND MEDICAL HISTORY QUESTIONNAIRE' with sections for Personal Information, Medical History, and Lifestyle. The bottom form is a 'NutriScript® SUPPLEMENT RECOMMENDATION' showing a customized supplement list for a patient named 'John Doe'.

NUTRISCRIP® RECOMMENDATION

We will fax a suggested formulation along with the total patient charges. You review the formulation and make any changes you deem necessary.

CREDIT CARD PAYMENT

Fax your patient's credit card information to us (located on the NutriScript Invoice). We will advise your patient of the charges and the product will be manufactured and shipped directly to their door.
